RESUME

EDWARD I. GELB, Ph.D., A.C.P., B.C.F.M.

SUMMARY OF QUALIFICATIONS

Forensic Psychophysiological

PROFESSIONAL EXPERIENCE

Dr. Gelb was formally trained in the polygraph technique at the Backster School of Lie Detection. He has conducted in excess of 30,000 polygraph examinations since 1969 and has testified as an expert in front of courts and legislative bodies throughout the country. Dr. Gelb has conducted specific criminal incident examinations for Fortune 500 companies, criminal defense attorneys and governmental agencies. He was appointed by the Los Angeles Superior Court in 1975 to administer 400 polygraph examinations to effect settlement of two class action suits. Dr. Gelb is one of the top experts whose testimony is accepted by the Los Angeles Police Commission. He presently conducts examinations for at least 100 defense attorneys, as well as numerous prosecutorial and police agencies. Dr. Gelb has been in the investigative field since 1956. He was a detective and lieutenant with the Los Angeles Police Department where he was the recipient of the Medal of Valor.

Dr. Gelb was educated at the University of Southern California, LaSalle University, and at UCLA. He holds a bachelor's degree in political science, a master's degree in psychology and a doctorate in psychology. His teaching credentials include U.S.C., Delta College, and the Polytechnic Institute in Madrid, Spain. Presently, Dr. Gelb is an adjunct faculty member of the Department of Defense Polygraph Institute and a member of the faculty of LaSalle University, where he serves as an adjunct professor of psychology.

Dr. Gelb continues on an on-going basis at continuing education seminars throughout the United States, Europe and South America. He taught polygraph at a school fully accredited by the American Polygraph Association, and taught "Detection of Deception" under the auspices of The American Society for Industrial Security. Dr. Gelb was an instructor at the Federal Bureau of Investigation's advanced polygraph course.

Dr. Gelb served as President, Executive Director, and Chairman of the Board of the American Polygraph Association. He is an Honorary Fellow of the Academy of Certified Polygraphists. He has held General Polygraph Licenses from the states of California, Oregon, Utah and Arizona. He is a member of The California Association of Polygraph Examiners, Northwest Polygraph Examiners Association, Ohio Association of Polygraph Examiners and the American Society for Industrial Security. He holds life membership in the American Polygraph Association and was the first person honored as the Polygraphist of the Year by the Academy of Certified Polygraphists. Dr. Gelb is a member of the American College of Forensic Examiners and is Board Certified in Forensic Medicine.

Dr. Gelb was selected by Columbia Pictures Television to represent the polygraph profession in a nationally syndicated television program during which 451 cases were examined by polygraph without a single identified error. Dr. Gelb conducted polygraph examinations on issues of national interest for Madrid, Spain's Channel 5 Television station, Valencia for two years.

Psychophysiological Detection of Deception Test of Donald Bohana

Donald Bohana came to our offices on October 10, 1997 to undergo a psychophysiological detection of deception (PDD) test. The issue under consideration dealt with the circumstances surrounding the death of Delores (Dee Dee) Jackson August 27/28, 1994. Preliminary information was provided by attorney, Harland Braun in the form of pertinent reports and documents.

During an extensive pretest interview, Bohana emphatically denied intentionally causing the death of Dee Dee. He stated that he and Dee Dee had been drinking out by his pool the night of August 27th. Dee Dee was in the pool when he noticed she appeared to be in trouble. He attempted to get her out of the pool by first using a pool skimmer. He was unable to lift her with the skimmer. Bohana was able to leverage Dee Dee out of the pool by holding on to the pool edge and using his arm as a lever. He attempted to resuscitate Dee Dee while awaiting the paramedics but was unsuccessful. Bohana denied being involved in an altercation with Dee Dee the night she died or inflicting any injuries other than those that might have occurred as part of the rescue attempt. He said he left nothing out of his recounting to me of the incident.

THE EXAMINATION

The examination was conducted with a computerized Axciton polygraph calibrated to factory specifications. Bohana was examined in accord with a zone comparison technique validated in a study for the United States Department of Justice. The relevant questions asked during the collection of the polygrams appear below with Bohana's answers. All appropriate release forms were executed before the examination.

QUESTIONS

1. "Did you have a physical altercation with Dee Dee the night she drowned?"

Answer: NO

2. "Did you inflict any injuries to Dee Dee that night that were not part of a rescue attempt?"

Answer: NO

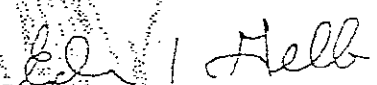

3. "Did you lie to me today about what happened to Dee Dee that caused her death?"

Answer: NO

The resultant polygrams were traditionally (manually) scored and then scored by computer using an algorithm developed by the Applied Physics Laboratory of Johns Hopkins University. This algorithm has been validated by the National Security Agency and is presently being utilized by the United States Department of Defense. The results of this scoring are included in this report. The scoring indicates that the examination was "NDI" (no deception indicated) with a probability of deception of .01, when Bohana answered the relevant questions as indicated above. The statistical confidence in the determination is 99%.

The results of the computerized examination indicate that Donald Bohana was telling the truth when he answered the relevant questions as above. The examination indicates that Bohana told the truth about the circumstances surrounding Delores Jackson's death.

During the post test interview, Bohana was apprised of the results of the examination.

Edward I. Gelb, Ph.D.
Forensic Psychophysicologist
